

# RING SIZE REFERENCE

Option 1:

- Place your ring over the circles, matching the inside edge of the ring to the nearest in size.
- If the ring falls between two sizes, select the larger size.

Option 2:

- **Copy this page.**
- Cut out the ring size chart and then cut a slit for slot "A".
- Wrap the ring size chart around your finger with the numbers facing outward.
- Insert "B" through slot "A" until it fits snugly around the finger where the ring will be worn.
- The number aligned along the slit is your ring size. If the measurement occurs between two numbers, your size is a half size. For example, if it falls between 7 and 8 then your ring size is 7½.
